

FRANKFORT ROUNDABOUT.

Just before day yesterday morning Mr. Henry Pifer discovered a thief attempting to break into the smoke-house of his brother-in-law, Mr. H. C. Dungan, on Todd street, and treated him to a head of small shot from his double-barreled gun. He didn't want to kill the rascal so only shot at his legs as he ran, but failed to stop him.

The opening of the thirty-sixth annual session of Greenwood Female Seminary is announced in this issue. Being one of the oldest female schools in the State it is also one of the best, and parents and guardians can not find a better or more competent instructor for their daughters and wards than the noble Christian woman who is the Principal.

THE FRANKFORT NIGHT SCHOOL.

Some few weeks ago "Nix," one of your correspondents called attention to this very important subject.

I do not look upon this in your paper as a few weeks ago, but as a matter of fact, it is a matter of fact.

Frankfort, as we all know, has the largest and best public school system in the State. All the strangers who have had the opportunity of visiting our school have said there is no public school in the State in which more money is expended annually for the purpose of educating the children of the poor than in this city.

I will consider the latter first. We, with "Nix," highly commend the training class and believe it to be a very important step in the school.

We have no objection to that, except we think it is superfluous in this way. It strikes me very forcibly that the first grade in the school should be exactly the same thing that this training class is. Now is there any use in the world for this class? I think not. And more, it is a cost of \$500 each expense.

It seems to me that this money could be spent in a more profitable way, and in the end more good accomplished. The question here is: Can we do anything better with the money? Can we do it so as to benefit the largest number of our citizens? I am sure we can do something better, although we have supported for the last two years a private boarding institution. I am sure we can make it more conducive to the interest of our citizens. We could do this by organizing and running a good night school.

When we read the biographies of most of our great men we see that they got their start in a public night school. We have seen demonstrations of the workings of night schools. Who can deny the fact that such schools have done, and who can do otherwise than predict good results of them. Who knows but if we had a good night school we could educate a President, a Senator or a man of high rank from our new boys, boot-blacks, and others in obscure circumstances. The question is now, which is more profitable, supporting a boarding school, or a night school where the boys are already advanced considerably in the ways of knowledge and in the laws of science, or take a poor, hard working boy, who is a President, a Senator or a man of high rank from our new boys, boot-blacks, and others in obscure circumstances. that training class and augment it by a few hundred dollars and have a night school. Will the trustees consider our proposition?

I have talked with a number of our best citizens and they all agree with me on this important subject. There can be no objection to a night school, and it is possible we want the night school.
